Scherzer & Co.

Executive Summary

Scherzer & Co. AG is a Cologne, Germany-based investment holding company whose object is to pursue long-term capital appreciation for its shareholders through an investment strategy that is both safety-oriented and opportunistic.

From safety-oriented aspects investments are undertaken in takeover bid/squeeze-out stocks and value stocks where the market price appears underpinned on the downside. Price-stabilising features may be a “natural floor” in the case of structural measures, either announced or in progress, or excellent balance sheet and earnings quality in the case of value stocks.

It also invests in companies offering enhanced opportunity potential at predictable risk, focusing especially on select growth companies with a sustainable business model. However, the market is also analysed for special situations that can offer attractive risk-reward profiles for diverse reasons. In addition, the company gladly seizes upon opportunities to participate in promising capital measures or secondary placings.
